

10J Summer Term Curriculum Overview

This term, pupils will be studying the following topics in their KS4 curriculum.

Subject	Topic
Drama	Pupils will build on current and develop new drama skills including teamwork, devising, improvisation and performance. Students to enact scenes from 'Stone Cold' by Robert Swindells, a novel that deals with homelessness. They will be working in small groups to create class performances using staging, lights and costume.
Music	10J will be working on collaborative skills this term. They will form duos/trios either with voices or instruments (or a combination of the two) to develop both original and cover pieces. They will also be using some new instruments (e.g. Tongue Drums) and new digital equipment to incorporate into their pieces.
Science	<p>This term in Science the pupils will be studying the topic of Forensic Science.</p> <p>Pupils will be encouraged to work and develop an understanding of the processes and methods of <i>science</i> through different types of <i>science enquiries</i>. <i>This</i> will help pupils to answer <i>scientific</i> questions about the world around them.</p> <p>Pupils will explore how forensic science is used in criminal investigations. Pupils will learn about forensic techniques to collect evidence such as fingerprinting and DNA. Each lesson will focus on a different forensic technique. The last week of term the Science room will be set up as a crime scene where the pupils will solve a fictional crime.</p>
English	This term the students will continue to complete the WJEC Introduction to Poetry module. We will finish the poem Island Man and Spring Sunshine. We will then focus on Human Rights. We will explore what they are and why we have them. We will focus on the topic of education. We will read aspects of Malala and watch the film He Called Me Malala.
Work Skills	Students will learn about what makes a successful interview through theory and practical. Students will learn about how to plan a journey using public transport, maps and timetables.
Maths	<p>Measurement: Area and Perimeter.</p> <p>Geometry: Angles, Shape and Symmetry.</p> <p>Statistics.</p> <p>All year 10 students will be working towards Entry and Foundation Maths. Students able to participate will be tested at the end of the May 2020. At the moment this has been put on hold.</p> <p>Please revise Money and Time.</p> <p>Work is available on IXL Math, Math Antics and Mathletics.</p>

10J Summer Term Curriculum Overview

This term, pupils will be studying the following topics in their KS4 curriculum.

PE	The group will be taking part and gathering evidence of participation in a range of sports and activities that they will then use to build their portfolios for the BTEC Introductory in Sport Award.
Citizenship	Students will continue to learn about democracy and how it works in the UK. They will learn about the electoral system works. They will learn about how the UK Parliament works.
Computing	Students will continue to prepare for an Edexcel ICT Functional Skills exam, This will include practicing on past papers, using Microsoft Word to open, edit and save documents, opening emails and extracting information from them, and editing Excel Files.
Art	Students will be exploring a graphic design project, looking at examples of CD covers and creating their own art work. We will be selecting different lettering fonts, revisiting ideas used in art sketch books and making a final design. We will use fine line drawing skills, mark making, experimenting with colours, patterns and mixed media materials.
SoCo	This term pupils will be focusing on teamwork.
