

Dear parents and carers,

Our School council met on Tuesday and are working on playground improvements. Our parent group met onsite on Monday - 13 parents attended. On Tuesday Wilmott Dixon, a construction firm, came onsite and ran a workshop about careers in construction for nine pupils. Dom Fryer, our Work Experience coordinator is working hard to set up external WEX placements. This can take time as employers need to check insurance and health and safety requirements. We heard this week that another former pupil is working in McDonalds. It's great to hear of young people finding employment after Highshore!

Our year 11 parents meeting will take place onsite on Monday starting with a presentation at 3-30.

Please will you make sure that your son/ daughter does not bring expensive items to school. Items can get lost and we cannot be responsible for valuable items unless handed in at reception to the school office.

We've heard from the Local Authority that vouchers will be issued again this half term to pupils in receipt of free school meals. If you have any questions please contact Nick Clark our Admin manager.

We break up on Friday 21st at our usual time.

Have a good weekend

Eileen

Pupils of the Week

7G	Connor — For making a good start as our class Student Council representative
7J	Lola — For staying in her clubs after school and listening to adults
7L	Lucy — For excellent writing in PSHE
8J	Isaac — For increased focus in literacy lessons

What we're doing in maths!

It's been a busy start to the year in Maths. We have continued to follow the Power Maths structure for lessons as well as focusing on as many practical opportunities to showcase learning in the classroom. All pupils have been working on Number and Place Value and learning about Shape and Measures. These are skills they learn to help apply to real world situations, e.g, learning about shapes helps student learn the language they could use to describe an object they have lost or misplaced.

Here are some pictures of 10R working towards their targets —Sam Croyle, Deputy Headteacher
